

PURINA® AMPLI-CALF® GROWER 18 DX.0015

Specie: Dairy

Type of Feed: Complete

Form of Feed: Textured

General Description: This complete feed is designed to be fed to calves starting at 13 weeks through 6 months of age.

PURINA® AMPLI-CALF® GROWER 18 DX.0015

Type C Medicated Feed

(For Ruminants Only)

COMPLETE FEED FOR DAIRY GROWER 3 TO 6 MONTHS IN CONFINEMENT

For the prevention of coccidiosis in ruminating and non-ruminating calves, including veal calves, and cattle caused by Eimeria bovis and Eimeria zuernii

CAUTION: FEED AS DIRECTED

ACTIVE DRUG INGREDIENTS

Decoquinatone0.0015%
(6.8 mg/lb)

GUARANTEED ANALYSIS

Crude Protein, (Min).....18.00%
Crude Fat, (Min).....1.50%
Crude Fiber, (Max).....10.50%
Acid Detergent Fiber (ADF), (Max).....12.50%
Calcium (Ca), (Min).....0.52%
Calcium (Ca), (Max).....1.02%
Phosphorus (P), (Min).....0.45%
Selenium (Se), ppm, (Min).....0.30
Vitamin A, I.U./lb, (Min).....6,250

INGREDIENTS

Note: ingredients differ by manufacturing plant

Grain Products, Plant Protein Products, Processed Grain By-Products, Roughage Products, Molasses Products, Soybean Oil, Calcium Carbonate, Salt, Propionic Acid (a Preservative), Citric Acid, Phosphoric Acid, Vitamin E Supplement, Yeast Extract, Ferrous Sulfate, Vitamin D3 Supplement, Copper Sulfate, Copper Amino Acid Complex, Manganese Sulfate, Selenium Yeast, Manganese Amino Acid Complex, Vitamin A Supplement, Zinc Sulfate, Zinc Amino Acid Complex, Ethylenediamine Dihydroiodide, Cobalt Glucoheptonate, Natural Flavor, Mineral Oil, Natural and Artificial Flavors, Sodium Selenite.

FEEDING DIRECTIONS:

Feed at the rate of 3.34 lbs per 100 lbs of bodyweight to provide 22.7 mg Decoquinatone per 100 lbs of body weight (0.5mg/kg) per day.

Feed at least 28 days during period of exposure to coccidiosis or when it is likely to be a hazard.

CAUTION:

Bentonite should not be used in Decoquinatone feeds. Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, performance loss or death.

WARNING:

Do not feed to cows producing milk for food.

Available Options:

Product No.	Formula Code	Package	Size Diameter	Product Form
1570205-506	LR1F	Bag	5/32-11/64	Textured
1570205-501	LR1F	Bulk	5/32-11/64	Textured

Product Features:	Product Benefits:
Proprietary immune modulating compound Unique prebiotic to maintain lower gut health	1. Stronger immune system 2. Increased effectiveness of vaccines and antibiotics 3. Animal energy is used for growth, not for fighting health challenges
Unique, highly digestible fiber source	1. Rumen development 2. Stimulate intake
AppetiteMAKER®	1. Increased intake 2. Consistent consumption of energy & protein, increasing growth 3. Ease of transition between starter and grower
Botanical	1. Optimizes ruminal pH and ammonia concentrations leading to more efficient use of nutrients.

IMPORTANT:

This product is to be fed only to the animal species as directed on this label. Follow these management practices:

1. Provide a source of fresh, clean water at all times.
2. To insure freshness, offer only the amount of feed recommended.
3. Clean feeder pails and/or feeders daily.
4. When calves are housed in groups after weaning, provide adequate feeding space.
5. When making a ration change, allow 7 to 10 days for animals to adjust to the new ration.

USAGE TIPS:

- Designed to be fed as part of the Purina® AMPLI-CALF® Program: 1. Full Potential Milk Diet – Cow’s Match® Milk Replacer, Cow’s Match® Jersey Blend for Jersey calves, Purina® Full Potential Calf Milk Replacer, or Pasteurized whole milk with Pasteurized Milk Balancer® 2. Purina® AMPLI-CALF® Starter 22 3. Purina® AMPLI-CALF® Grower
- Feed at a rate of 10 lbs./head/day. Feed from 13 weeks to 6 months of age.

KEY POINTS:**Purina® AMPLI-CALF® Program**

- Purina® AMPLI-CALF® Grower is designed to be part of the Purina® AMPLI-CALF® Program that includes:
 - 1. Full Potential Milk Diet (Feed from day 1 through 7 to 8 weeks of age at 2.5 pounds of dry matter per day)
 - Cow’s Match® Milk Replacer
 - Cow’s Match® Jersey Blend for Jersey calves
 - Purina Full Potential® Calf Milk Replacer
 - Pasteurized Milk Balancer®
 - Added to pasteurized whole milk to supplement nutrition levels
 - 2. Purina® AMPLI-CALF® Starter 22 (Feed from day 3 through 12 weeks of age)
 - Choose between pelleted or texturized
 - AMPLI-CALF® Jersey Blend for Jersey Calves
 - Increase amount offered to calves as consumption grows to provide a free choice diet
 - 3. Purina® AMPLI-CALF® Grower (Feed from 13 weeks through 6 months of age)
 - Feed 10 pounds per head per day

Increased First Lactation Milk

- Research at the Purina Animal Nutrition Center confirms that Calves fed the Purina® AMPLI-CALF® Program can deliver up to 2,740 pounds more milk in the first lactation.

Reduced Age at First Calving

- Calves fed a calf grower with AMPLI-CALF® Technology can reach 55% of their mature size and should be ready to breed by 12 months of age or less
- Reducing the calving age to 22-23 months means fewer replacement heifers to feed, and helps increase the size of the milking herd.
- Breeding and calving heifers at a younger age reduces investment in feed and bedding for young stock.
- Cost efficient Heifer Raising

Earlier Return on Investment

- Heifers that calve between 22-23 months of age enter the milking herd and begin to provide an earlier return on investment.
- Cows that calve for the first time prior to 24 months of age have higher lifetime milk production.

Unique ingredients

- Unique ingredients tie all 3 steps of the program together consistently to improve feed intake and support of immune functions.
- No other calf nutrition program contains these technologies.
