

QUICKDRAW®

DEER ATTRACTANT

WHAT IT IS:

Designed to attract deer with its irresistible scent and flavorings, this 20 lb block helps attract big bucks and keeps deer coming back. It can also be used to supplement poor quality forage or habitat. Studies on the Quick Draw® Deer Block attractant show strong consumption, driven by a proprietary flavoring agent not found in any other deer block.

FEATURES AND BENEFITS:

Highly palatable - Keeps deer coming back

Irresistible scent and flavorings - Attracts big bucks

Supplemental feeding source - Supplements poor quality forage or habitat

HOW AND WHEN TO FEED:

Feed QuickDraw® Deer Block Attractant free choice to deer and elk in native habitat or pasture. QuickDraw® Deer Block Attractant is a supplement, not a complete feed. Adequate forage from native habitat should be readily available. Place blocks in areas frequented by animals such as game trails, near water sources, feeding and bedding areas. When placing blocks for the first time, place small amounts of corn, apples or carrots around the block to attract animals.

CAUTION:

Do not feed this product to sheep. It contains copper. Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, performance loss or death. This product contains selenium. Follow label directions: Feeding added selenium at levels in excess of 0.3 ppm in total diet is prohibited.

SPECIAL CONSIDERATIONS:

Regulations for the feeding of big game can vary from state to state. Please check with your local game and fish department for the proper usage of this product.

MANAGEMENT PRACTICES:

A feeding program is only as effective as the management practices. Actual results can vary depending upon feed intake, environmental conditions and the quality of the management practices.
